

Don't Be Left in the Dark. We Light Your Path.

Campbell is the industrial partner that keeps your facilities running and your reputation intact. 24/7/365.

We always show up.

Campbell Mechanical Services has been the mechanical backbone for commercial and industrial facilities since 1968. We prevent problems before they happen, and when something does go wrong, we're there before it becomes a crisis to light your path to the best solution.

What we bring to your portfolio:

- Singular point of contact for multiple locations, simplifying your management effort and saving you time
- Preventative maintenance programs that catch issues before they shut down operations
- 24/7/365 emergency response — local technicians who know your facilities
- Fixed-cost maintenance agreements that protect your clients' O&M budgets and make your quarterly reviews easier
- A Lifetime Guarantee on installed systems — we're invested in the long game, just like you are

We're here to make you look good.

Call Us Today! Light Your Path.

HVAC, plumbing, and building controls across manufacturing, distribution, warehousing, and more — four locations, 150+ technicians, one reliable partner.
