

Chemical Plants Need More Than a Standard HVAC Contractor.

Campbell Mechanical Services provides purpose-built maintenance programs for chemical and industrial facilities, from a team that knows the environment.

Why Chemical Plants Choose Campbell

- **Lifetime Guarantee, No Surprise Bills**
If we maintain your system and something fails, we cover the repair.
- **24/7 Emergency Response: 1-800-HVAC-911**
Process-critical systems don't fail on schedule. **Someone always answers.**
- **Specialists Who Know Your Environment**
We know the difference between a comfort system and a process-critical one.
- **VOC Ventilation & Air Quality Control**
We maintain the systems that protect your people and keep you compliant.
- **Compliance Documentation & Controls**
We close gaps and protect your facility from OSHA and EPA exposure.

Our Specialized Services Include:

- Preventative HVAC & mechanical maintenance
- VOC ventilation & exhaust system maintenance
- Chiller & process cooling system service
- Building controls & compliance documentation
- Plumbing, process water & emergency shower systems
- Emergency 24/7 mechanical response
